

ICMC Nuclear Warhead Transport Policy

MISSILE SEPARATION

Warheads must be separated from missile at the missile silo site, prior to transport

ON-BASE TRANSPORTATION

Transport must stop for inspection at all checkpoints. Maximum transport speed shall be 20% of the posted limit on all roads.

REGULATORY CERTIFICATION

All nuclear warheads must go through regulatory certification prior to being processed for transfer.

SECURE MILITARY TRANSPORT

Nuclear warheads must be transferred to secure military transport prior to exiting the High Risk area of the military base from which it is being transported.

PROCESSING

All regulatory and transfer paperwork must be processed and approved before entrance to Air Transit Terminal.
