

Agents,

Thank you for helping us figure out the source of that signal.

The pyramid we unearthed is a 13 km trek through beautiful, varied terrain. There are many photo-worthy sights along the way though, so I hope the hike isn't a miserable experience.

We have sent our guide, Herve, to escort you back to the dig site. There is only the one route to get here - the rest of the terrain is impassible.

We eagerly await your arrival!

Sincerely,

Dr. Elena Morales
